To whom it may concern:

I am filing a PRR (public records request) for any and all information the Attorney General's office has on UVM Medical Center changing the terms of the eleven endowments they were given that were less than \$50,000 and donated more than 20 years ago. (see Vt state statutes.)

I recently found information on eleven endowments given in perpetuity to the hospital between 1885 -1891 for a "free bed" for needy members of the community. They don't seem to have any information on these endowments, thus they have not honored them. I was wondering if they got the AG's permission to change the terms of these donations.

Thank you.

Martha Lang (802) 862-1094

I just want to be sure this PRR is  
not lost.

Thank-you

Martha
